EXECUTIVE SUMMARY: MISSION

The National Science Foundation (NSF) was established by Congress in 1950 as an independent agency of the Federal government with the mission "to promote the progress of science; to advance the national health, prosperity, and welfare; and to secure the national defense. NSF supports fundamental research at the frontiers of knowledge, across all fields of science and engineering (S&E) and S&E education. With an annual budget of about \$8.8 billion (FY 2022), NSF funds approximately 24% of all federally-supported fundamental research conducted by U.S. colleges and universities.

NSF accomplishes its mission primarily by making merit-based grants and cooperative agreements to colleges, universities, and other institutions to support researchers throughout the nation. NSF uses a merit review process to select new awards from competitive proposals submitted by the S&E research and education communities. Each year, NSF evaluates approximately 43,600 proposals to make around 11,300 competitive awards to 2,000 institutions. NSF's merit review uses two criteria to evaluate research proposals- intellectual merit (i.e., the potential to advance knowledge) and broader impacts (i.e., the potential to benefit society).

Over the years, NSF-funded research and education projects and world-class S&E infrastructure have led to many significant discoveries. More than 250 Nobel Prize winners received support from NSF at some point in their careers. The highly acclaimed achievements of these laureates are but a small fraction of the advances enabled by NSF, which have, in turn, stimulated economic growth and improved the quality of life, health, and security for our nation.

In order to unleash the United States' innovation potential, it is essential to have a well-prepared S&E workforce, capable of taking advantage of the expanding knowledge base and advanced technology generated by fundamental research activities. NSF continues to meet the U.S. S&E workforce needs by seamlessly integrating the education of future scientists, engineers, and educators into the broad portfolio of research that NSF supports. This investment strategy generates not only groundbreaking S&E discoveries, but it also equips the future S&E workforce with the knowledge and experience to apply the most advanced concepts and technology to meet societal challenges.

NSF has a strong commitment to diversity and inclusion, as reflected in the core values outlined within NSF's newly crafted 2022-2026 Strategic Plan, more specifically: "We value the knowledge, skills, abilities, experiences and perspectives that colleagues from different backgrounds bring to our work and workplace. We recognize that these things strengthen NSF's ability to fulfill its mission..." Moreover, the complimentary principles of diversity, equity, inclusion and accessibility are now embodied in three of NSF's strategic objectives under the first and fourth strategic goals: Strategic Goal 1: Empower STEM talent to fully participate in science and engineering. Specifically: *Strategic Objective 1 (G1/01): "increase the involvement of communities underrepresented in STEM and enhance capacity throughout the nation. Strategic Objective 2 (G1/02): "Grow a diverse STEM workforce to advance the progress of science and technology"* and Strategic Goal 4: Excel at NSF operations and management. Specifically: *Strategic Objective 2 (G4/02): "Invest in people - attract, empower and retain a talented and diverse NSF workforce"*. NSF continues its strong commitment to diversity and inclusion and takes the necessary actions to attain model EEO status.

NSF's total workforce for FY 2021 consisted of 1,569 employees - 1,311 permanent and 258 temporary - according to the Federal Personnel Payroll System (FPPS). The NSF staff are distributed across seven science, technology, engineering and mathematics (STEM) directorates and five business offices. The STEM directorates include many temporary employees in both temporary federal appointments and as Visiting Scientists, Engineers, and Educators

EXECUTIVE SUMMARY: WORKFORCE ANALYSES

SUMMARY ANALYSIS OF NSF'S WORKFORCE

Over the last fiscal year, recruitment and retention activities were impacted due to the pandemic and questions about remote work. However, NSF has attempted to make strides towards attaining model Equal Employment Opportunity (EEO) status as defined by the EEO Commission (EEOC). NSF's workforce strategy seeks to serve not only the Federal workforce but the wider academic and research communities.

The EEOC requires that agencies compute the net change within a demographic group, within the workforce, between two time periods. This net change is calculated by taking the difference between the number of employees in a demographic group at the end of the current fiscal year and the prior fiscal year and dividing this number by that in the prior fiscal year. If a group's percentage decreased, that net change is negative. If a group displays a net change lower than that for the total workforce, there may be a barrier to enhancing participation.

Consistent with NSF's mission, a number of Broadening Participation grant programs seek to increase diversity in the wider academic and research communities, which supply the talent pool for staff serving under Intergovernmental Personnel Act (IPA) appointments, who are considered vital to NSF's mission, but who are not included as employees in FPPS and, therefore, are not included in tabulations in this report.

NSF Workforce by Race/Ethnicity and Sex

The EEOC requires that agencies compute the net change within each demographic category in the agency workforce, between the fiscal year just ended and the previous fiscal year. Overall, the NSF workforce remained relatively the same in FY 2021 compared to FY 2020. However, in Table A1, the demographic categories with small numbers show the biggest changes in percentage (Hispanics Females -- 8 (Number Difference) 16.00% (Net Change); Native Hawaiian or Other Pacific Islander Males -1 (Number Difference) -100% (Net Change); Native Hawaiian or Other Pacific Islander Females -1 (Number Difference) -100% (Net Change); Native American Females -1 (Number Difference) -100% (Net Change); Two or More Races (Males) -- 1 (Number Difference) ;25% (Net Change).

The Civilian Labor Force (CLF), as measured by the U.S. Bureau of Labor Statistics (BLS), is a benchmark for determining underrepresentation of demographic categories in NSF's total workforce. Table A1 compares the NSF total workforce data to the 2014-2018 CLF. The following groups were below parity:

- Males (12.53% below parity);
- Whites (10.88% below parity); and
- Hispanics/Latinos (7.05% below parity).

EXECUTIVE SUMMARY: WORKFORCE ANALYSES

Conversely, categories over-represented in the NSF total workforce when compared to the 2014-2018 CLF were:

- Females (12.53% above parity);
- Blacks/African Americans (15.51% above parity); and
- Asians (4.88% above parity).

Table 1. NSF Total Workforce, FY 2020 and FY 2021

FY-20	FY-21
Permanent - 1263	Permanent - 1311
Temporary - 242	Temporary - 258

Table 1 disaggregates the NSF workforce by permanent (n=1,311) versus temporary appointments (n=258). Comparing the permanent and temporary workforces is important because of the research on labor force participation that suggests minority group members are more likely than those in the majority group to occupy less secure positions. There were a few ways in which the NSF temporary workforce continues to differ from those in the permanent workforce.

- Males had a higher percentage representation in the NSF temporary workforce (which includes VSEE's), while females had a higher percentage representation in the permanent workforce;
- Hispanics and Whites had a higher percentage representation in the NSF temporary workforce than in the permanent workforce.

FY 2021 NSF Permanent Workforce to FY 2021 NSF Temporary Workforce and 2014-2018 Civilian Labor Force

NSF's 1,311 permanent employees in FY 2021 were distributed across 12 components, which include seven "research directorates," which implement programs consistent with NSF's mission and five "offices" that support NSF's mission via business and administrative functions. The demographic composition for each of NSF's 12 components by sex, with the following recurring key findings:

- Overall, 60.74% of NSF's employees were female, which is higher than the 2014-2018 Civilian Labor Force percentages (48.2% female);
- Females continue to account for more than half of all employees in nearly all NSF's directorates (Table A2); with the exception of
- The Mathematics and Physical Sciences (MPS) directorate, which had the lowest percentage of female employees: 49.5% (Table A2);

EXECUTIVE SUMMARY: WORKFORCE ANALYSES

- Females accounted for more than 65% of employees in the Office of the Director (O/D), 65% in the Budget and Finance Administration (BFA), 66% of employees in the Office of the Inspector General (OIG), 71% of the National Science Board (NSB) office and over 74% of employees in the Education and Human Resources (EHR) directorate (Table A2).

Racial/Ethnic Composition of the FY 2021 NSF Total Workforce Compared to the 2014-2018 U.S. Civilian Labor Force (CLF)

12.31%	27.16%	African-Americans
12.98%	5.93%	Hispanics/Latino (a)
67.47%	56.59%	White

Source: Workforce Data Table A1

Table A1 of the Workforce Data Tables show the racial/ethnic composition of the FY 2021 NSF total workforce. Overall, the NSF workforce had a relatively higher percentage of employees of color (43%) than the comparable U.S. civilian labor force (33%).

Key findings (Workforce Data Table A2):

Racial/ethnicity composition continues to vary greatly across NSF's components, for example:

- 66% of the directorate of Geo Sciences total workforce were White, with relatively small representations of Blacks/African Americans (22%) when compared to other offices and directorates;
- 63% of the directorate of Biological Sciences total workforce were White, with relatively small representations of Blacks/African Americans (16%) when compared to other offices and directorates;
- Blacks/African Americans accounted for more than 32% of the permanent workforce in five components: Education and Human Resources (EHR) 47%, Computer and Information Science and Engineering (CISE) 42%, Information and Resource Management (IRM) 39%, Budget, Finance, and Awards Management (BFA) 33%, and Engineering (ENG) 36%.
- While Asian employees accounted for ~9% of NSF's overall permanent workforce and 4% of the Civilian Labor Force, Asians accounted for more than 10% of the permanent workforce in five components: Biological Science (BIO) 11%, Office of the Inspector General (OIG) 12%, Mathematical and Physical Sciences (MPS) 10%, Social, Behavioral, and Economic Sciences (SBE) 15%, and Computer and Information Science and Engineering (CISE) 14%.
- Hispanics/Latinos accounted for 6% of the NSF total workforce, a rate lower than the Civilian Labor Force of 13%; MPS, CISE, BIO and OIG components had the highest representation of Hispanic/Latino permanent employees at ~ 7%.

NSF Workforce by Disability Status

EXECUTIVE SUMMARY: WORKFORCE ANALYSES

As shown in Table B1, NSF's total workforce included 9.31% People with Disabilities (PWDs) and 1.85% People with Targeted Disabilities (PWTDs) in FY 2021. This representation is below the 501 goal of 12% for PWDs and 2% for PWTDs, but it does reflect a net increase of 5% and 7%, respectively.

Among NSF's new hires (permanent and temporary, averages) in FY 2021, 14.3% were PWDs (this represents a 7% increase in representation over FY 2020), 0.0% were PWTDs, 75.73% reported having no disability status, and 10% did not identify a status as reported in Table B8.

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

Essential Element A: Demonstrated Commitment from Agency Leadership à Fully Met

In FY 2021, NSF met all measures under Essential Element A. Some highlights of accomplishments under this element include the following:

Charged by the NSF Director, the foundation established the NSF Racial Equity Task Force (RETF), an employee-led effort to identify and address racial barriers and inequities that may exist within the agency. The RETF Steering Committee and sub-committee working groups were assigned to conduct a comprehensive analysis and assessment of: employee listening sessions, interviews with NSF resource offices, demographic data, focus groups, and other research data.

Following their analysis, the RETF developed a comprehensive report of recommendations which was disseminated to all staff and is currently under review and planning for appropriate next steps in this multiphase continuing effort.

Initial outcomes of the effort have been:

- The establishment of the Racial Equity Task Force demonstrated the values of diversity and inclusion from the highest level of organizational leadership.
- The preparation of the task force report engaged staff in the opportunity to co-create recommendations for policies and initiatives in support of an environment of diversity, equity, and inclusivity in employment and program delivery.
- The report provided the Director with employee perspectives, recommendations, ideas and possible strategies for growth and development regarding racial equity.

In order to emphasize the importance of consistent understanding and application of DEIA concepts and values across NSF programs, the NSF Director incorporated training on Operationalizing Racial Equity into scheduled executive leadership meetings.

NSF's FY 2021-2022 Annual Performance Goal was to "foster a culture of inclusion through change management efforts resulting in change leadership and accountability". The 2021 target of the goal was "All NSF executives, managers, and supervisors would participate in culture change activities". The outcome yielded 100% of supervisory leadership having completed the required Prevention of Sexual Harassment and Handling Workplace Bullying training.

NSF leadership consistently prioritizes participation in the agency's Special Emphasis Program observances. In FY 2021, the NSF Director underscored his commitment to the values of diversity, equity, inclusion and accessibility by personally providing opening remarks at 8 of the 9 agency-wide observances. To ensure this commitment was maintained by the highest levels of the agency, the Chief Operating Officer stood in for the Director to provide remarks at the single annual program he was unable to attend.

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

OECR disseminates copies of existing EEO policy statements and provides EEO/D&I briefings to all new employees through the agency's New Employee Orientation (NEO) program and to new Program Officers via Program Management Seminars. OECR also offers specialized EEO briefings to the various NSF divisions and/or units. These offerings continue to be provided virtually due to the pandemic.

In addition, new managers and existing employees are provided with a copy of the EEO policy statement when attending NSF's Virtual Federal Supervision Training, which is mandatory when promoted to supervisory ranks.

Essential Element B: Integration of EEO into the Agency's Strategic Mission à Fully Met

NSF continued to meet all measures under Essential Element B. Some highlights of accomplishments under this element include the following:

NSF submitted the Governmentwide DEIA Strategic Plan to the Assistant to the President for Domestic Policy (APDP), the Director of the Office of Personnel Management (OPM), and the Deputy Director for Management of the Office of Management and Budget (OMB), within 120 days of the directive being issued. NSF's Plan identified actions to advance DEIA in the workforce and remove any potential barriers identified in ongoing agency self-assessments.

The plan incorporated quarterly goals and actions to advance DEIA in the agency workforce and in the agency's workplace culture, and was developed in a manner that is consistent with the law. The plan also preserves merit principles and was developed in consultation with cross-agency DEIA Teams and relevant stakeholders.

NSF's FY 2021-2022 Annual Performance Goal to "foster a culture of inclusion through change management efforts resulting in change leadership and accountability" was developed to directly support the overarching NSF Strategic Plan for Fiscal Years 2018-2022, Strategic objective 3.1: Attract, retain, and empower a talented and diverse workforce.

Ms. Rhonda J. Davis, Head of the Office of Equity and Civil Rights, served as a key committee member responsible for the development of NSF's new strategic plan for FY 2022-2026. In that role, Ms. Davis ensured that EEO, D&I, and equity-based values were adequately addressed and included in NSF's overall strategy.

NSF piloted their "The Discovery Files" podcast series in Spanish to expand outreach to the Hispanic community. By releasing this series in Spanish, future employees can see themselves and their language

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

represented at the agency. Removing what can sometimes feel like cultural fit barriers allows the agency to be proactive, using innovative means to reach future employees sooner.

Essential Element C: Management and Program Accountability à Met

NSF continued to meet all measures under Essential Element C. Some highlights of accomplishments under this element include the following:

In order to demonstrate accountability to the DEIA performance goal set by leadership, NSF issues an Annual Performance Report (APR) to our stakeholders and the American public. The APR provides information on the progress NSF has made toward achieving its goals and objectives as described in the agency's strategic plan and Annual Performance Plan. To provide confidence that the performance information would be credible, NSF followed the Government Accountability Office's guidance and engaged external contractors to conduct an independent validation and verification review of its annual performance information, data, and processes.

All NSF SES members' performance plans continue to include a D&I element; however, sample language for agency-specific performance requirements have been included in an SES Performance Desk Guide for consideration when developing and rating plans. The examples were designed to help make D&I practical in its application, and thereby help to integrate behavioral change into the policies and practices that govern their day-to-day operations.

NSF established two new, employee driven groups: 1) an NSF chapter of Blacks in Government (BIG), whose mission is to enable Black employees to have the ability to maximize their career opportunities and provide a mechanism for inclusion, growth, and advocacy; and 2) the Mental Health Advocates (MHA) employee resource group, whose mission is to be a strategic partner with NSF to promote a culture of diversity and inclusion.

OECR offered various learning and development opportunities, including Prevention of Sexual Harassment, Handling Workplace Bullying, Diversity and Inclusion, Unconscious Bias and Conflict Resolution.

OECR staff participated on inter-agency councils and groups, including the EEOC's Director's Meetings, OPM's D&I 60+ Federal Agencies Strategic Partnership, Federal interagency Diversity Partnership, DOJ's Title VI Working Group, Title IX Inter-Agency Working Group, Veterans Employment Program Working Group, International Working Group on Sexual Misconduct, Alternative Dispute Resolution Working Group, Missing Millions Working Group, Gender Policy Council, Racial Equity Task Force, DEIA Implementation Team, Equity for Under-served Communities & Geographical Diversity.

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

OECR provided input and assistance in the coordination, development, and implementation of the following EEO and related plans, in collaboration with HRM, agency counsel, and other applicable officials:

- The Annual Federal Equal Opportunity Recruitment Program (FEORP) Plan, which involved targeted recruitment efforts based on a determination of underrepresentation of minorities and/or women in the various occupational categories, both nationally and in specific geographic locations.
- The Disabled Veterans Affirmative Action Program (DVAPP) Representation and Assessment and Action Plan, which focuses on methods used to recruit and employ disabled veterans, especially those who are 30 percent or more disabled.
- The NSF DEIA Strategic Plan, which provides a shared direction, encourages commitment, and creates alignment so NSF can approach its workplace DEIA efforts in a coordinated, collaborative, and integrated manner. Agency staff contributed to the planning efforts by participating in the agency assessment and strategic planning sessions.

OECR responded in a timely manner, to compliance issues related to the EEOC and other applicable orders.

In FY21, the Office of Diversity and Inclusion (OECR) underwent an organizational expansion, restructuring, and renaming to the Office of Equity and Civil Rights (OECR). The intent of the reorganization was to expand OECR's reach and capacity to better serve NSF stakeholders and workforce and achieve a model EEO program. In preparation for the reorganization, NSF assessed its capacity and needs via evaluation tools such as the office/directorate reviews and an OECR organizational assessment. Findings from the assessments informed OECR's organization plan which was approved by agency leadership. The approved plan restructured OECR into three branches and increased OECR's staffing level to a total of 26 FTEs. As of the end of FY21, OECR FTE count increased from 11 to 18. While OECR did not reach the FTE capacity as planned, the reorganization has reaped benefits and NSF continues to seek opportunities to enhance scope and support of critical EEO and DEIA initiatives, as supported by the needs and capacity assessment.

During the interim OECR developed plans to pilot a detail opportunity for five Special Emphasis Portfolio (SEP) Strategist to begin expanding OECR's SEP program. Plans for the SEP Strategists included being responsible for developing and implementing strategic, targeted initiatives to promote DEIA in all aspects of employment for targeted groups.

Essential Element D: Proactive Prevention of Unlawful Discrimination à Fully Met

NSF continued to meet all measures under Essential Element D. Some highlights of accomplishments under this element include the following:

- The analyses to identify and remove unnecessary barriers were conducted throughout FY2021;

National Science Foundation

For period covering October 1, 2020 to September 30, 2021

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

- The fulfillment of its requirement under the America COMPETES Act Reauthorization, to complete Title IX Compliance Site Reviews;
- The continued collaboration with senior managers in identifying and implementing action plans to eliminate identified barriers. OECR also continued its partnership with the NSF Academy staff to identify training and professional development opportunities that will support the agency having a Model EEO Program;
- The completion of 99.5% of employees fulfilling the required bi-annual Prevention of Sexual Harassment and Handling Workplace Bullying training;
- A collaborative, 5-year pilot with NSF's Union partners, AFGE Local 3403 to incorporate alternative dispute resolution (ADR) as an optional process for addressing non-EEO disputes and we continued to encourage the use of ADR to all employees via the EEO Complaints Program, inclusive of supervisors and managers;
- The completion of workforce analyses regarding race, ethnicity, sex, and disability in which the groups were evaluated via workforce profile, major occupations, grade level distribution, compensation and reward system.

NSF Complaint Activity Analysis

During this period there were 4 informal and 2 formal complaints filed with a total of 6 bases.

Essential Element E: Efficiency à Measures Met

NSF met all measures under Essential Element E. Some highlights of accomplishments under this element include the following:

OECR continued to track and monitor all EEO complaint activity throughout the complaints process via iComplaints and other means. The system allows NSF to identify issues and bases of complaints, identify the persons who filed the complaint and the Responsible Management Officials, and enter other relevant information such as requests for extensions and hearings, settlements, etc. to allow NSF to analyze complaint activity and trends.

OECR continued to identify and monitor trends in complaint processing to ensure the agency is meeting its obligation under applicable laws.

NSF maintained an ADR program in which ADR was offered to aggrieved individuals, as appropriate, during the pre- and formal complaint stages of the EEO process.

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

Once ADR is elected, all managers are required to participate. Participating managers are required to have the applicable settlement authority.

Essential Element F: Responsiveness and Legal Compliance àFully Met

NSF met all measures under Essential Element F. Some highlights of accomplishments under this element include the following:

OECR continued to implement a system of management control in close consultation with the Office of the General Counsel to ensure timely compliance with all orders and directives issued by EEOC Administrative Judges.

OECR continued to maintain control over the payroll processing function to guarantee responsive and timely processing of any monetary relief and to process any other form of ordered relief, if applicable.

All documentation for completing compliance in a timely manner was provided to the EEOC.

EXECUTIVE SUMMARY: PLANNED ACTIVITIES

EEOC'S FEDERAL SECTOR COMPLEMENT PLAN REVIEW - FOCUS AREAS

For this report, NSF focused on the following areas: (1) Schedule A hires; (2) reasonable accommodations program in regard to NSF's Disability Program; (3) anti-harassment program; (4) barrier analysis of executive level positions. In 2014, NSF began to identify relevant benchmarks and promising practices for these focus areas, which are addressed in other agency reports, including the Federal Equal Opportunity Recruitment Program (FEORP) and the Disabled Veterans Affirmative Action Program (DVAAP).

Schedule A hires

In FY21, HRM hired a new Selective Placement Program Coordinator (SPPC) and new Veterans Employment Coordinator (VEC). During this time, of the 234 Federal NSF new hires, 33 (approximately 14%) were individuals who reported a disability. Seeking to be broadly inclusive in hiring efforts, NSF's Human Resource Management provides operational support to NSF's Directorates and Offices, which includes generally meeting with these organizations on either a bi-weekly or monthly basis. During these meetings, HRM regularly holds strategic recruitment discussions with an emphasis on special hiring authorities and programs that could allow managers to non-competitively hire disabled veterans and/or other Schedule A hires.

As part of overall efforts, NSF continues to encourage new hires to complete the SF 256 to self-identify their disabilities. While this process is completely voluntary, this is encouraged both during the hiring process, and during New Employee Orientation. Additionally, the agency sends out a request annually to remind individuals that they may update their disability status at any time. Numbers of new hires and internal employees completing these forms is improving.

While most outreach events and career fairs were still "on hold" due to the pandemic, NSF continued to perform targeted outreach. The SPPC, in coordination with OECR, formed a partnership with Fairfax County Public Schools (FCPS) as part of the Secondary Transition to Employment Program (STEP). This program places disabled students into unpaid positions at federal agencies and organizations to allow them to gain real-life work experience. Additionally, the SPPC joined the Workforce Recruitment Program (WRP), a site managed by the US Department of Labor and the US Department of Defense to recruit and hire student and job applicants with disabilities. The SPPC regularly reviews eligible applicants from WRP and refers them to NSF vacancies that match their skills and experience, and champions the WRP with managers across NSF. Several HR Specialists and hiring managers have joined the WRP as a result. The SPPC is actively engaged with external organizations supporting disability hiring initiatives and has formed productive relationships with key stakeholders within the agency, the federal industry, and surrounding communities to enhance NSF's capabilities to support hiring individuals with disabilities.

Reasonable Accommodations

EXECUTIVE SUMMARY: PLANNED ACTIVITIES

Supporting persons with disabilities through reasonable accommodations (RA) in compliance with laws and regulations governing Federal sector equal employment opportunity (EEO) and civil rights is a high priority of NSF. NSF also works to ensure equal opportunity through policy development, workforce analyses, outreach, and education.

HRM updated several communication documents and templates to increase the knowledge of Reasonable Accommodation (RA) programs and options in coordination with OECR. For example, HRM updated our "commitment letter" template to include information about requesting reasonable accommodations for new hires, and/or to assist during the New Employee Orientation Process. Additionally, interview "best practices" were updated to include a reasonable accommodation option for interviewees. Our supervisory training courses were updated to include information about available reasonable accommodation options for the recruitment and hiring processes; and our external assessment process involved coordination with OECR to allow for reasonable accommodations for applicants to take the assessment.

All new employees are provided information about NSF's RA services as a regular part of the onboarding process to ensure persons with disabilities know how to obtain an accommodation. NSF also delivered Disability Employment and Reasonable Accommodations training as part of NSF's Federal Supervision course and Merit Review Basics II. The training included an overview of the laws governing EEO as they relate to disability employment and reasonable accommodations; a description of the process of requesting reasonable accommodations; and the role managers and supervisors play in this process.

Anti-Harassment Program

OECR participated in a number of virtual sessions that provided an understanding for NSF employees of diversity and inclusion and EEO techniques. Courses included:

- Harassment
- Inclusion and belonging
- Retaliation
- Bullying/Abusive Treatment
- Accountability and Performance Management
- Discrimination
- Fair Hiring, Selection, and Promotion
- Documenting Workplace Events and/or Accommodations

EXECUTIVE SUMMARY: PLANNED ACTIVITIES

- Employee Request for Leave
- NSF continues to develop courses which entail extensive education and training for senior level executives, managers, and supervisors, with content about implicit bias;
- NSF's Equal Opportunity and The Prevention of Harassment policies and EEO complaints processes in compliance with Title VII are prominently posted in agency common areas and communicated to staff on an on-going basis; and
- NSF's explicit external policies include nondiscrimination obligations and compliance with Title IX, both of which are monitored by OECR.

Barrier Analysis of Executive Level Positions

For purposes of this report, the EEOC defines a barrier as "An agency personnel policy, principle, practice, or condition that limits or tends to limit the employment opportunities of members of a particular gender, race or ethnic background or for an individual (or individuals) based on disability status."

Glass Ceiling Benchmarks and SES Pipeline Analyses, FY 2021

Upward Mobility Benchmarks (UMBs) were used to capture the different pathways into the SES for NSF employees. One SES pathway for NSF staff is upward progression through the GS-ranks.

Source: Data for this table were extracted from Table A4 PERM.

The step-wise gaps are shown in two ways. First, differences in proportionate representation are shown for which a negative signed number indicates the demographic category accounts for proportionately fewer of those in the *higher* compared to the lower grade position.

Key findings include:

- There are few Hispanic/Latino employees at the GS-13-14-15 levels, suggesting this to be a potential source of a barrier for Hispanic/Latino employees;
- The GS-13-14-15 pathway to the SES suggests that white males and females are advantaged towards upward career movement, representing proportionately more employees at each subsequent step along the GS-pathway to the SES; and
- While African American females are overrepresented in comparison to the CLF at the GS-13 level (38%) compared to their overall NSF workforce participation (22%), their proportionate representation significantly declines at the GS-15 level (17%), suggesting this level to be a potential source of a barrier for African American females.

The agency has conducted an annual self-assessment of Section 717 and Section 501 programs against the essential elements as prescribed by EEO MD-715. If an essential element was not fully compliant with the standards of EEO MD-715, a further evaluation was conducted and, as appropriate, EEO Plans for Attaining the Essential Elements of a Model EEO Program, are included with this Federal Agency Annual EEO Program Status Report.

The agency has also analyzed its work force profiles and conducted barrier analyses aimed at detecting whether any management or personnel policy, procedure or practice is operating to disadvantage any group based on race, national origin, gender or disability. EEO Plans to Eliminate Identified Barriers, as appropriate, are included with this Federal Agency Annual EEO Program Status Report.

I certify that proper documentation of this assessment is in place and is being maintained for EEOC review upon request.

<p>STATEMENT OF CONDITION THAT WAS A TRIGGER FOR A POTENTIAL BARRIER:</p> <p>Provide a brief narrative describing the condition at issue.</p> <p>How was the condition recognized as a potential barrier?</p>	<p>Issue #1: Underrepresentation of Race and Sex in NSF's Total Workforce - The agency's Hispanic total workforce (5.93%) is lower than their civilian labor force (CLF) (12.98%) (Tab A1) - The agency's male total workforce (39.26%) is lower than their CLF rate of (51.79%) causing a variance of -13%. (Tab A1) Issue #2: Advancement of Black/African American (B/AA) female permanent staff - The workforce data indicates the participation rate of B/AA females in the agency's total workforce is 22%, which far exceeds their rate of 7% in the CLF (Tab A1). - B/A- B/AA females occupy 44% of all Management and Program Analysts (0343) positions in comparison to 13% for white males and 22% white females (A6P). Report of Accomplishments

Fiscal Year	Accomplishments
2021	NSF established an account with the new platform Handshake App, to allow targeted recruitment of students and recent graduates at all local colleges in DC, Maryland, and Virginia. This is enabling NSF to focus on specific institutions to increase diverse hiring efforts, including the hiring of Hispanics and Latinos.
2021	NSF started the process of working with our online application system owner, Monster Hiring Management, to add new Diversity Notifications during the announcement posting process. This has allowed NSF to directly send vacancies to targeted Hispanic Professional organizations and associations.
2021	NSF has developed the NSF Talent Team. The Talent Team is a multi-level effort focused on decreasing bias in the selection processes, recruiting and selecting the best candidates, and improving the efficiency of HR systems and processes. One focus area of note is the scaling back of educational requirements in lieu of greater focus on skills relevant to the position. The goal is to more effectively attract and onboard the diverse workforce needed at all levels of the agency.
2021	Mental Health Advocates ERG was created. Over the course of the year, they have worked to accelerate growth and impact for employees across the Foundation.

MD-715 – Part J
Special Program Plan
for the Recruitment, Hiring, Advancement, and
Retention of Persons with Disabilities

To capture agencies' affirmative action plan for persons with disabilities (PWD) and persons with targeted disabilities (PWTD), EEOC regulations (29 C.F.R. § 1614.203(e)) and MD-715 require agencies to describe how their affirmative action plan will improve the recruitment, hiring, advancement, and retention of applicants and employees with disabilities.

Section I: Efforts to Reach Regulatory Goals

EEOC regulations (29 CFR § 1614.203(d)(7)) require agencies to establish specific numerical goals for increasing the participation of persons with disabilities and persons with targeted disabilities in the federal government

1. Using the goal of 12% as the benchmark, does your agency have a trigger involving PWD by grade level cluster in the permanent workforce? If "yes", describe the trigger(s) in the text box.

- | | | |
|-------------------------------|--------|----|
| a.Cluster GS-1 to GS-10 (PWD) | Answer | No |
| b.Cluster GS-11 to SES (PWD) | Answer | No |

There are not any triggers, however, the agency is aware that low percentages are due to employees not identifying their disability. The agency plans to develop a campaign to promote the benefits of self-identification. Additional trainings are in development for managers on the process/benefits of Schedule A hiring.

*For GS employees, please use two clusters: GS-1 to GS-10 and GS-11 to SES, as set forth in 29 C.F.R. § 1614.203(d)(7). For all other pay plans, please use the approximate grade clusters that are above or below GS-11 Step 1 in the Washington, DC metropolitan region.

2. Using the goal of 2% as the benchmark, does your agency have a trigger involving PWTD by grade level cluster in the permanent workforce? If "yes", describe the trigger(s) in the text box.

- | | | |
|--------------------------------|--------|----|
| a.Cluster GS-1 to GS-10 (PWTD) | Answer | No |
| b.Cluster GS-11 to SES (PWTD) | Answer | No |

The Cluster for GS-11 to SES (PWTD) is less than 2% but this does not represent a trigger. GS-1 to GS-10 PWD = 11.54% GS-11 to SES PWD = 8.92% GS-1 to GS-10 PWTD = 3.85% GS-11 to SES PWTD = 1.70% Source: Table B4P

3. Describe how the agency has communicated the numerical goals to the hiring managers and/or recruiters.

Hiring goals communicated via collaborative meetings with Human Resources and other agency organizational offices during various presentations and meetings conducted throughout FY 2021 by the Office of Equity and Civil Rights and the Division of Human Resource Management.

ADMINISTRATION AND MANAGEMENT

SUBJECT: Policy Statement on Equal Opportunity and the Prevention of Harassment

As the primary funding agency of basic research in the U.S., the National Science Foundation (NSF) is committed to building scientific workspaces where people can learn, grow and thrive. As your leaders, we will continue partnering with each of you to ensure NSF's mission is achieved in an environment that respects and values every individual's contribution. NSF is committed to ensuring that all employees and applicants have an equal opportunity to compete in all aspects of Federal employment and program delivery.

To that end, NSF's Office of Diversity and Inclusion (ODI) is responsible for ensuring that the Agency is compliant with EEO laws and regulations. This includes administering an impartial and effective management process to receive, investigate, and resolve, if possible, complaints of employment discrimination at the earliest possible stage. Allegations of discrimination in employment that are based on race, color, religion, national origin, sex (including gender identity, sexual orientation, and pregnancy), age, disability, genetic information, or retaliation should be reported to the ODI.

Harassment prohibited by this policy is any verbal or physical conduct that is unwelcome, humiliating, or demonstrates hostility or aversion towards a person. Sexual harassment is defined as "unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature" not only when the conduct is made as a condition of employment ("quid pro quo" harassment), but when the conduct creates an intimidating, hostile, or offensive work environment. Issues involving sexual harassment should be reported to ODI immediately. NSF will not tolerate workplace harassment or harassment of any kind, including sexual harassment and is committed to addressing unlawful conduct and harassing behavior immediately.

In addition, NSF does not tolerate retaliation for opposing discriminatory practices or for participating in the discrimination-complaint process. This applies to all terms and conditions of employment, including recruitment, hiring, promotions, transfers, reassignments, training, career development, benefits, and separation. Employees alleging harassment or providing information related to such claims are protected by law from retaliation. Any complaint of retaliation should be reported to the ODI.

NSF employees who feel they have been subjected to non-EEO based harassment should report the incident to the Branch Chief of the Employee Relations Branch (ERB) in the Division of Human Resource Management (HRM) or his or her immediate supervisor (or second-line supervisor in the event the first-line supervisor is the alleged harasser). Examples of non-EEO based harassment include slurs, offensive or derogatory comments, or other inappropriate verbal or physical conduct. If appropriate, employees should make it clear to the individual(s) that such behavior is offensive and unwelcome. Supervisors or managers who observe or are notified of harassing conduct are required to immediately assess the situation and report to HRM.

NSF employees who feel they have been subjected to EEO based harassment should report the conduct to the Office of Diversity and Inclusion. NSF will ensure that investigations of non-EEO and EEO based harassment are conducted in a prompt, thorough, and impartial manner. NSF will begin investigations within 10 days of receiving the harassment complaint and will take immediate and appropriate action when it has been determined that harassment has occurred with the outcomes being decided by the respective office.

The confidentiality of employees bringing forth complaints will be protected to the greatest extent possible. The outcome of the inquiry and findings shall determine if the conduct violated the Agency's policy and, if so, what type of action is warranted. All employees are expected to fully participate in investigations into allegations of discrimination, harassment, and/or retaliation. Any employee, supervisor, or manager who is found to have violated NSF's anti-harassment policy or procedures may be subjected to appropriate disciplinary action.

NSF is dedicated to ensuring employees are informed of their rights. Therefore, NSF has created a portal, [About Harassment](#), to be a resource to educate staff on NSF harassment policies as well as the launching of the Speak Up campaign. The Speak Up campaign focuses on educating employees on discrimination, bullying, harassment, stress and anxiety, physical safety, and workplace violence. We hope to ensure all employees feel safe while performing the important work of the Foundation.

ADMINISTRATION AND MANAGEMENT

SUBJECT: Statement on Diversity and Inclusion

As the National Science Foundation's (NSF) new Director, I would like to take this opportunity to affirm my earnest and enduring belief in the principles of diversity and inclusion – not only as the right thing to do, but as a mission critical imperative. I believe diversity and inclusion is the foundation for everything we do. We all have a part in ensuring that all NSF personnel experience an authentic sense of belonging and are treated with dignity and respect. I assure you that I am fully committed to my part and role as your leader.

We should continually seek new methods and tools to ensure that our frameworks are built on the premise that the contributions of every single member of the NSF family are needed toward fulfilling our mission. We must ensure inclusive and innovative approaches are considered, such as human centered design, and that we are empowering staff with the opportunity to collaboratively build, co-create, and design initiatives around a culture that is welcoming and respectful. In a creative and innovative work environment, discoveries in basic research can advance exponentially with a workforce that feels valued and understood for their unique perspectives.

I have empowered the Office of Diversity and Inclusion (ODI) to continue enhancing its engagement and coordination efforts to ensure my vision for a work environment where a sense of belonging for everyone is part of our DNA. For example, I have sanctioned a Racial Equity Task Force to identify institutional and other barriers to full inclusion and to make recommendations to eliminate those barriers. I encourage each of you to partner with ODI on this and future efforts. I look forward to serving as your 15th Director, and I could not be more excited about the discoveries that together we will make possible in science, engineering, and education.
