AIR QUALITY MANAGEMENT DISTRICT

Program Summary

Air Quality

Positions: 9.0 FTE

Extra Help: \$0

Total Appropriations: \$9,390,185

Total Revenues: \$9,390,185

Net County Cost: \$0

The Air Quality Management District (AQMD) administers the California and Federal Clean Air Acts via guidelines set forth by State and Federal Agencies and the AQMD Rules established by the Board of Directors. These requirements are implemented through a variety of permitting, inspection, and enforcement activities including: emission control requirement compliance verification, Naturally Occurring Asbestos dust control, fugitive dust control, burn rule enforcement, 24 hour complaint investigation, land development project review and promotion of transportation control measures that improve air quality.

Revenue is generated from stationary source permit fees, construction dust mitigation plan fees, Federal Targeted Airshed Grant (TAG) funding, motor vehicle registration fees, State funding for Portable Equipment Registration Program (PERP), State grant funding for ag equipment through the FARMER program, subvention funding for rural districts, annual Carl Moyer Program allocations, AB617 grant funds, and other sources. Stationary source permit fees are adjusted annually based upon changes to the California Consumer Price Index and in accordance with the AQMD Rules. A fee study is currently in process to analyze the District's fees to determine if they are appropriate for each stationary source category as well as for fugitive dust plans and asbestos dust mitigation plans.

AQMD funds shuttle projects, bike paths, road paving, bus retrofits/replacements, agricultural equipment replacements, and other projects that reduce motor vehicle emissions.

AQMD incentivizes the purchase of electric vehicles and works to expand electric vehicle charging infrastructure throughout the County. The number of Drive Clean! incentives for the purchase or lease of a qualifying new EV (electric vehicle) or PHEV (plug-in electric hybrid vehicle) for FY2023/24 is showing a continuing strong level of participation in the program. With legacy manufacturers introducing more eligible EV and PHEV models each model year, we expect this to continue to be a robust and cost-effective incentive program. To augment this effort, in FY2023/24 AQMD implemented a residential electric vehicle charger incentive program utilizing AB2766 DMV funding.

AQMD also incentivizes old wood stove removals and replacements through a proven local program and several highly successful enhanced State-funded programs, and in FY22/23 we added an additional Federally funded program which provides standard and enhanced incentives for low-income residents or residents of low-income communities, which has replaced over 75 woodstoves for County residents.

In April of 2018, AQMD introduced the Clean Lawnmower Incentive Program (CLIP) which to date has incentivized the replacement of over 1,075 gas-powered lawnmowers with clean, quiet, battery-powered electric mowers. Recently, the State Air Resources Board expanded the eligibility for this funding to include other residential electric lawn and garden tools and in February of 2024, AQMD rolled out an expanded incentive program to include weed eaters, chainsaws, trimmers, and riding lawnmowers. Residents have taken advantage of this expanded program to trade in approximately 40 of these newly covered types of lawn of equipment.

Since 2022, AQMD has provided the County Department of Transportation with Federal Targeted Airshed (TAG) grant funding to double chip seal slurry approximately 9.45 miles of the County's unpaved roads that are located in or near naturally occurring asbestos (NOA) areas. So far, DOT has completed

AIR QUALITY MANAGEMENT DISTRICT

the paving of Sandridge Road, Tullis Mine Road, Bear Creek Road, Sweeney Road, Oriental Street, and South Street. The TAG grant funding is also providing funding for the El Dorado County Fire Safe Council's biomass chipping program for residences inside the eligible area on the West Slope of El Dorado County.

In late FY2022/23, the Board approved AQMD's award of AB923 DMV fund grants for the replacement of eleven (11) school buses from seven (7) school districts. Several of those buses have been delivered and funded in FY2023/24, with the remaining anticipated to be replaced and funded in FY2024/25. Additionally, we anticipate the Carl Moyer grant program to fund one previously awarded electric school bus in FY2024/25, as well as additional eligible on and off-road vehicles and equipment from applications in process or yet to be received. AB2766 grants will continue to fund projects that were previously awarded for calendar year 2024 and 2025.

As in past fiscal years, AQMD continues to perform its objectives successfully and efficiently. Staff salaries and benefits only comprise of 16.01% of the FY 2024-25 budget and total general administrative (non-program) costs comprise only 20.05% of the total budget.

Staffing Trend

AQMD's staffing remained constant for several years after separating from the Environmental Management Department in FY 2010-11. From FY2010-11 to FY2015-16, AQMD had a staff of 7.0 FTE allocations. In FY 2016-17, a Senior Department Analyst (now Program Manager) was added to increase the allocations to 8.0 FTE. In FY2018-19, the Board of Directors approved the addition of a Senior Air Quality Engineer to fulfill increased State mandated program requirements, expand the incentive programs and enhance succession planning, giving AQMD an allocation of 9.0 FTE. Since then, the District has remained at this level, with no additions or reductions in staff.

CPI Index is determined by the State of California Office of the Director - Research Unit Consumer Price Index : Selecting California CPI, All Urban Consumers, April to April of the prior year. Referenced by Rule 601.4C, 609.4B and 610.3.B.4

California Revenue and Taxation Code Section 2212: "Percentage change in the cost of living means the percentage change from April of the prior year to April 1 of the current year in the California Price Index for all items, as determined by the California Department of Industrial Relations." Due to changes in the manner the California CPI is calculated and reported by the California Department of Industrial Relations starting in 2018, April's CPI number is not available in time to release budget and fee information per California code. The District used the April 2017 - February 2018 CPI change for the FY18-19 fee calculation, are using the February 2018 - February 2019 CPI change for the FY19-20 fee calculation, and will continue using February-February CPI numbers for future years.
