

Norpine Trail System: This trail segment under evaluation features both a tracked ski-only lane and a packed lane for shared use by skate-skiers and bikers. **ONLY this trail is open to fat-tire bikers and skiers.**

Any bikers that ride on non-approved ski trails will jeopardize this limited partnership with the [Norpine Trail Association](http://www.norpinetrails.org). Bikers **must not** go through the "Scientific Natural Area" (SNA) which is well designated on the trail.
