7 Preamble

8 GSB and GPSS have a special and unique relationship, supported by decades of history,
9 which is different than the relationship between GSB and any other organization. This
10 document has a primary status in the enumeration of the rights and responsibilities of the two
11 governmental bodies, as well as codifying independent legitimate authority.

12 GSB is the only student government organization on campus which represents all
13 students: undergraduate, non-traditional, graduate, and professional. Accordingly, GSB
14 allocates student fees in a manner to benefit the student body as a whole, by funding such
15 entities as the Daily, the Committee on Lectures, and Student Legal Services. GSB is also able
16 to speak to the university administration and outside groups on behalf of the entire student
17 body.

18 GPSS is the independent government body which handles matters of concern to
19 graduate and professional students that fall outside of the scope of the GSB by-laws.
20 Specifically, GPSS confronts issues of professional and academic advancement common to
21 graduate and professional students such as the funding of travel grants. In addition, GPSS
22 funds graduate and professional student groups which are not eligible for funding through the
23 GSB student fees allocation process.

24 Beyond its funding responsibilities, GPSS is charged with the representation of
25 graduate and professional student interests in policy-making decisions, both on and off
26 campus. This representation requires that GSB and GPSS consult one another in the
27 deliberation of issues that may affect the two constituencies differently. It is the
28 responsibility of both institutions to establish and maintain communication with one another
29 on such issues.

30 As a result of the organization and responsibilities of GPSS, its role is different than
31 both GSB and a constituency council. Its special status within the overall structure of ISU
32 student governance is one that complements, and is independent of, the governance structures
33 of GSB and enhances the overall representation of student interests at ISU. In the interest of
34 both the GSB and the GPSS, the following Articles of Cooperation shall serve as an outline of
35 procedures for communication, funding, and representation.
