**Subject:** Statement from NOAA dated 06 September 2019

Ms. Roberts--

Were you responsible for drafting and releasing the statement disavowing the social media posts of the Birmingham (AL) NWS office?

This statement specifically?

***"From Wednesday, August 28, through Monday, September 2, the information provided by NOAA and the National Hurricane Center to President Trump and the wider public demonstrated that tropical-storm-force winds from Hurricane Dorian could impact Alabama. This is clearly demonstrated in Hurricane Advisories #15 through #41, which can be viewed at the following link.***

***The Birmingham National Weather Service's Sunday morning tweet spoke in absolute terms that were inconsistent with probabilities from the best forecast products available at the time."***

Thanks for taking the time to respond...

Terry James
