SuperPaint® with Air Purifying Technology
Interior Acrylic Latex has the power to reduce VOCs and common indoor odors — making it easy to create the ideal environment.

Contributes to Cleaner Indoor Air Quality

Reduces volatile organic compounds (VOCs) from potential sources like carpet, cabinets and fabrics.

Reduces Common Household Odors

Innovative technology helps break down unwanted odors, such as those from cooking, smoke and pets.

Helps Prevent the Growth of Mold and Mildew

Features anti-microbial agents that inhibit the growth of mold and mildew on the painted surface.

Colors that Create Balance

Available in a wide variety of colors, including 540 inspired hues from the Living Well™ collection.

Industry-leading innovation from a name you can trust. Many hours of field testing, years of research and decades of experience go into developing coatings that are better for your business. Sherwin-Williams has been committed to quality for more than 150 years and has a complete line of extraordinary paints and stains, plus rich, beautiful colors to set your work apart.
