Surfers Against Sewage
Volunteer Recruitment
Volunteer Regional Rep
September 2024

WELCOME

Ocean health is vital to all of us, wherever we live. The food we eat and the water we drink. The places we work and play. The weather around us. The climate we depend on. Even the air we breathe. Society has been shaped by a healthy and stable ocean. For people to continue to thrive and live life to the fullest, the ocean must thrive too. The planet is at tipping point and change is needed now.

From a handful of activists to a nationwide movement over the last 30 years, Surfers Against Sewage has grown into one of the UK's most successful marine conservation and campaigning charities. 30 years on, sewage and plastic pollution remain huge threats to a thriving ocean.

We must therefore continue to grow our impact to change the systems which create these issues by putting profit over people, and which promote short-term thinking to solve issues with long term consequences.

The heritage of our organisation is anchored in the ocean. Yet our reach and influence now permeates communities

and institutions nationwide, from a programme of school engagement, through to supporting community groups to monitor and lobby for better protection of inland bathing waters

In this decade devoted to the ocean, we will redouble our efforts and continue to mobilise and equip the biggest and most authentic community of ocean conservation campaigners and volunteers in the UK.

If this inspires you then please read on to find more about who we're looking for.

THANK YOU FOR YOUR INTEREST IN JOINING OUR TEAM OF VOLUNTEERS!

I joined in August and couldn't be more excited to have joined the team. We will take time to look back at the amazing things SAS has achieved in 30 years and apply this wisdom to the current global context of environmental, social,

and political challenge. Our staff, volunteers, communities, and supporters make up our Ocean Activists; this is a powerful tribe which will continue to demand change and I remain optimistic that we will achieve it.

2024 will see us deliver the final year of our Ocean Impact Plan and collectively create a 2025-30 Strategic Plan. This is an exciting time to join our team and get involved in writing the next chapter, which will see us collectively create a new 5-year strategy. We will start with our Theory of Change, underpinned by science, to channel every action of every Ocean Activist into effecting real and lasting solutions."

EQUITY, DIVERSITY AND INCLUSION

Surfers Against Sewage
Volunteer Recruitment Pack

Here at Surfers Against Sewage, we are not ones to shy away from the big topics. Equally, we are self-aware enough to realise where we have work to do.

We are setting ourselves ambitious but attainable targets and we recognise our engagement in Equity, Diversity and Inclusion needs a dedicated, organisation-wide strategy.

The impact of plastic pollution, water quality and climate change disproportionately affects marginalised communities, yet there is significantly lower representation in Ocean Activism from within these communities. We want to change that. Our aim to create Ocean Activists everywhere isn't a tag line, it's a mission.

We are all connected to the ocean, regardless of distance, age, gender, race, disability, sexual orientation or belief system. We want to help reconnect us all to the ocean, waterways, rivers, lakes and even the water we use in our homes and schools. It's all connected – let's protect it together.

And finally, even if you don't meet every single requirement and don't surf, here at SAS we are committed to building a diverse, inclusive and equitable workplace, so if you like the look of this, then we'd love to hear from you, so please apply using the link below.

Being a SAS regional rep is so incredibly empowering. Now more than ever the ocean is in need of people willing to protect it. It's wonderful to be surrounded by others that have that same passion and dedication about protecting the ocean as you.
